

# Laptop Impact

## Report

# Empowering Rohingya Camp Students through Technology

We are delighted to share the substantial impact achieved through the generous donation of 50 laptops by our esteemed partner, Tower Hamlets GP Care Group. This invaluable contribution has been channelled into our educational initiatives within the Rohingya Camps, bringing transformative change to the lives of numerous individuals.

# Initiative Overview

The central objective of this initiative was to bridge the technology gap faced by residents of the Rohingya Camps, who have limited access to contemporary computing tools.

The laptops generously provided by Tower Hamlets GP Care Group have played a pivotal role in equipping these individuals with essential computing skills, opening doors to a realm of opportunities.

## Transformation through Technology

With access to laptops, students within the Rohingya Camps have attained proficiency in a range of fundamental computing skills, encompassing Microsoft Office applications, internet navigation, and graphic design using programmes like Photoshop.

These skills are not only enhancing their present learning experiences but also positioning them for future personal and vocational growth.

# Education as Empowerment

The laptops have been transported to Bangladesh, where dedicated classes and courses are in full swing. Our team at Lonely Orphans is actively guiding these students, empowering them to harness technology as a tool for advancement. Through this initiative, students are not merely acquiring technical skills, but also cultivating the confidence to navigate a swiftly evolving world.

## Creating a Path Forward

The impact of Tower Hamlets GP Care Group's donation reverberates widely. Beyond the immediate acquisition of skills, these laptops are pivotal in broadening horizons for these students, enabling them to access information, connect with the wider world, and potentially contribute to their communities in innovative ways.

# Continued Partnership

We wish to express our profound gratitude for the remarkable collaboration with Tower Hamlets GP Care Group. Your support has ignited meaningful change in the lives of Rohingya Camp residents.

We look forward to continuing our partnership to create even more transformative opportunities for education and empowerment.

*"Thank you for being a beacon of change".*
